## anything but standard.....

... then KIND Arbeitssicherheit is your first choice.  
In addition to our catalogue items, we specialize in customising individually tailored solutions

We can make „your own“ special model from a variety of fabrics, colours and model variants

Due to our highly flexible production facility we can implement these special solutions in limited or larger production runs.

Interested? Contact us, we are happy to help

## when it matters....

**KIND Arbeitssicherheit GmbH - your reliable, competent partner for high class protection clothing with more than four decades experiences in Personal Protective Equipment (PPE)**

**Primarily we are manufacturing Hi-Vis Weather protection- and Multi-function-Garments offering different characteristics for various fields of applications In addition we offer a wide range of special garments for industries including chemical, petrochemical, energy, waste disposal, restoration and cleaning**

**ISO-certified EUROPEAN PRODUCTION guarantees consistent quality and high flexibility**

**Our permanently stocked standard-range is complemented by a flexible realisation of customized solutions within a short lead time KIND-garments are always meeting the latest normative requirements**

**Sales are carried out exclusively through specialist dealers**

**KIND Arbeitssicherheit is a member of amfori (BSCI Business Social Compliance Initiative) where we ensure strict adherence to the social standards of our entire supply chain as a natural obligation for our company**

**KIND is a member of IVPS - Interests Network personal protective equipment e.V. - An association of companies and associations in the field of PPE**

**decontex**<sup>®</sup> / **gammamatex**<sup>®</sup>  
**coverall - chemical protection**

**waterproof • windproof • breathable  
liquid-tight • particle-tight • type-tested  
flame-retardant • antistatic**

a wide range of re-useable, approved, certified protective suits are offered by our garment range within **decontex®** and **gammatex®** series

when you need protection for working in the cleaning, disposal and restoration industries - the breathable, wind- and water-proof and particle-tight coveralls not only provide protection against moisture, but also enable a multitude of individual uses - eg. also the application of pesticides of the disposal of asbestos and other hazardous waste

for industrial environments where high protection against hazardous situations, where flame-retardant and antistatic properties are required, the CONCEPT series and the coverall RESIST offer optimal body protection

notably, our new coverall RESIST is characterized by its high resistance to a variety of aggressive hazards, thus ensuring optimum protection under extreme conditions

# lamigard<sup>®</sup> FA 4000 multifunction clothing

**waterproof • windproof • breathable  
antistatic • flame-retardant • chemical-resistant  
protection against cool environments**

the **gammatex® FA 3000** series is based on a breathable, hydrophilic PU-coated polyester special fabric with flame-retardant properties according EN ISO 14116

In addition the integral lining, **actiflame®** fulfils the normative requirement, meeting the highest flame-retardant INDEX 3 for skin contact for such protective garments

additionally within the outer fabric weave there is carbon-yarn providing electrostatic properties according to EN 1149

**gammatex® FA 3000** also fulfils the requirements to EN 13034 (chemical protection) and EN 14058 (protection against cold environments)
